Hi Edith,

Yes this is very hectic. First the cross funding label provided is correct. Second, I will provide the favorite for Greg's favorites in PPL....

Currently, we're basing hours on 12, but any hours beyond they regular hours is considered OT. Each region was supposed to be responsible for their own pay cap memo. I am going to clarify right now on this call to ensure that I'm correct.

As far as how many more ERT people are needed that call would be Craig Myers he should be able to let someone know if others are needed.

Hi Christine,

I left a voicemail message for you yesterday. Greg Powell tells me that it's pretty hectic over there.

I just wanted to confirm that the cross-funding account string you sent in your e-mail is what we are going to use for Greg's travel.

I was told that you would provide the accounting string for People Plus as well.

Do you have any idea of how many additional ERT employees will be required? Will employees be working 12 hours shifts? Is there going to be a pay cap lift?

Thanks for your assistance with this.

Edith
